## Work Experience

**UI/UX & Product Designer -** Design'N'Buy *(Mar 2025 - Present)*

- Led the end-to-end UX and UI redesign of DesignO, Design'N'Buy's 14-year-old flagship editor, from audit to launch in 10 months.
- Unified merchandise, printing, packaging and photo books into one editor with live pricing, print guides and a 2D/3D preview.
- Built the design system and responsive layouts that carry the same components from desktop to tablet to phone.
- Shaped product strategy with stakeholders and reviewed builds with developers through launch.

**UI/UX Designer -** MCS Ventures *(Dec 2022 - Mar 2025)*

- Designed mobile apps, websites and dashboards end to end, from user flows and wireframes to high-fidelity UI.
- Built responsive front-end interfaces in HTML, CSS and React, keeping what shipped close to what was designed.
- Created social media and marketing design within brand guidelines.
- Styled and customized WordPress websites alongside developers.

**Web Designer -** iCONEX India *(Nov 2021 - Nov 2022)*

- Designed website layouts and marketing assets for digital campaigns.
- Created branding visuals that kept the look and message consistent across platforms.
- Helped with front-end development and UI improvements.

## Projects

**DesignO - AI-Powered Web-to-Print Solution** *(https://www.designnbuy.com/designo-online-print-product-design-tool/)*

- Rebuilt the editor around the four things every shopper does: choose, design, check and buy, with the price visible at every step.
- Turned safe, cut and bleed rules into guides on the canvas, adding product-specific tools only where needed.
- Designed mobile as its own layout: a bottom tab bar, the 3D preview as a sheet, and print guides kept on the canvas.

**BlockBolt: Decentralized Payment Protocol** *(https://blockbolt.io/)*

- As the solo designer, took the merchant dashboard from research, personas and information architecture to nine modules of UI.
- Designed merchant tools for payments, invoices, POS, paylinks and orders across ICP, Solana and SUI.
- Designed the wallet app's onboarding and payment flow, keeping one visual language across web, mobile and tablet.
